

Birth to Three and Three to Five: Key Vision Development Questions to Ask

Bruce Moore OD

Marcus Professor of Pediatric Studies
New England College of Optometry
Boston, Massachusetts

About the *Year of Children's Vision* initiative

- The goal of YOCV is to provide national guidance to staff of Head Start, Early Head Start and other early childhood programs to standardize approaches to vision screening, improve follow-up for eye care, provide family friendly educational information and consult with some of the nation's leading pediatric eye care providers to ensure best practices.
- YOCV was initiated by and is supported by leading national vision health organizations, for a complete list and other resources go to:
